Also, we are highlighting our Grandparents Tours. We offer tours age appropriate: 5 and Under, 6-12 and 13-18. Each tour allows grandparents to connect and spend quality time with their grandchildren. Tours include a meal and hands on activities.

The Road to History

Experience firsthand life in the 1800s, railroads and the evolution of the television.

Enjoy a docent led tour through the Historical Village at Weaver Park composed of a log cabin, one room school house, chapel, original Hilliard's Train Station, caboose, election wagon, privy, barn, granary, covered bridge and museum. All buildings are authentic not reproductions! Take a turn at churning butter.

The Early Television Museum is the nation's only museum devoted to televisions. Explore the invention and technology of the television, old cameras and a mobile production van. See firsthand how these old televisions worked.

Making Tracks through Train Town is a 2-hour trolley ride with a conductor (docent) providing information on the significance of the railroads in the past and future of Hilliard including train wrecks. Trolley ride includes stops at points of interest.
